

HEAVY DUTY TRASH PUMP

EDP-SP-4x4L

100 MM HEAVY DUTY TRASH
PUMP

APPLICATIONS OF ENGINE DRIVEN PUMPS

- Steel and Paper mills
- Mines
- Food processing plant
- Chemical processing plant
- Sewage handling
- Abattoirs
- Construction industry
- Dewatering
- Trade waste handling

Self priming with dependable performance makes EDP-SP Serie Pumps a sensible solution for industry and municipalities requiring little maintenance, resulting insignificant savings of time and money.

EDP-SP PUMPS :

Renowned for their reliability.

A lasting investment.

TRUSTED REPUTATION. PROVEN PERFORMANCE.

EDP-SP is a product of years of research and development expertise. We have been meeting the challenging needs of our clients for many years, by making sure they have the right equipment to get the work done.

EDP-SP is the solution for all aspects of waste water, sewerage, mining and solids laden liquids.

CREATING SOLUTIONS FOR A BETTER FUTURE.

Being the best takes determination, dedication and a desire for excellence. Using up-to-date technology and extensive research puts us ahead.

QUALITY GUARANTEED.

Renowned for their reliable robust operation, every product is subject to rigorous stringent testing and re-testing requirements. Using up-to-date technology and rugged construction materials, EDP-SP Pumps are built to last.

We guarantee we will provide the performance, quality and power you need.

SERVICE AND BACK UP.

EDP-SP is supported by an extensive range of spare parts and accessories to keep your equipment performing at its best.

WHY CHOOSE EDP-SP

- Solid Reputation
- Self Priming
- Low Installation Cost
- Guaranteed Support
- Robust Construction
- Back Pull-Out Design
- Easy Maintenance

HEAVY DUTY TRASH PUMP

EDP-SP-4x4L

100 MM HEAVY DUTY TRASH
PUMP

Approximate physical dimensions of pump model EDP-SP-4x4L

TECHNICAL DETAILS

MAXIMUM OUTSIDE DIMENSIONS	: 769mm (L) x 502mm (W) x 743mm (H)
PUMP WEIGHT	: 270 kilograms
IMPELLER DIAMETER	: 247.65 millimeters
RPM	: From 650 to 1950 RPM
DISCHARGE	: 100 millimeters maximum
CAPACITY	: Maximum 45 l/s
HEAD	: Maximum 36 meter
SOLID HANDLING CAPACITY	: 76 millimeters maximum

CONSTRUCTION

Materials for all EDP-SP Series models Cast Iron, 316 Stainless Steel and CD4MC

PERFORMANCE CURVES EDP-SP-4x4L SERIES

EDP-SP SERIES MAINTENANCE

STEP 1

MAINTENANCE

Routine maintenance services are carried out quickly and easily with the use of standard tools, thus economizing Downtime and labor.

STEP 2

CLEANING AND INSPECTION

Cleaning and inspection of EDP-SP Series Pump is undertaken without disconnecting the pipework. Cleaning and clearing are simple tasks, as are inspection and replacement of the impeller and seal, when necessary.

STEP 3

SHIMLESS EXTERNAL IMPELLER ADJUSTMENT

An exclusive system to externally adjust the impeller clearance without disassembling the pump, using just an Allen wrench.

Simple adjustment can optimize pump efficiency while extending the life of both impeller and wear plate.

STEP 4

STEP 5
